FURTHER DETAILS REGARDING MAIN TOPICS OF
PROGRAMME No. 11/2019 (Item No.24)

DRILLING ASSISTANT

GROUND WATER

(Category No.248/2018)

Basic electricity, Electricity principles Ohm's law, Power, Energy, Voltmeter, ammeter, Ohmmeter, Multimeter, Conductors & insulators, Length vs. resistance, Resistor, Fuses & circuit breakers, Resistors in Series circuits, Parallel circuits and Series-parallel circuits, Capacitors and its applications, Capacitors in series and parallel Batteries & cells, Description of Chemical effects, Batteries & cells, Lead acid batteries

Introduction to Hydraulics & Pneumatics: Definition of Pascal law, viscosity. Description, symbols and application in automobile of Gear pump-Internal & External, single acting, double acting Pressure relief valve, Non return valve, Flow control valve used in automobile. Pneumatic Symbols, Description and function of air Reciprocating Compressor.

Introduction to Engine: Description of internal combustion engines, Classification of IC engines, Principle & working of 2&4-stroke diesel engine, differentiate between 2-stroke and 4 stroke

Diesel Engine Components: Description and Constructional feature of Cylinder head, Type of Diesel combustion chambers, Effect on size of Intake & exhaust passages, Head gaskets. Description and Function of Engine Valves, materials, Type of valve operating mechanism, Importance of Valve seats, importance of Valve rotation, Valve stem oil seals, size of Intake valves. Valve trains, Valve- timing diagram, concept of Variable valve timing. Description of Camshafts & drives, Description of Overhead camshaft, importance of Cam lobes, Timing belts & chains, Timing belts & tensioners. Description & functions of different types of pistons, piston rings and piston pins and materials. Used recommended clearances for the rings and its necessity precautions while fitting rings, common troubles and remedy. Compression ratio. Description & function of connecting rod, importance of big-end split obliquely, Materials used for connecting rods big end & main bearings. piston pins and locking methods of piston pins.

Description and function of Crank shaft, camshaft, Engine bearings- classification and location - materials used & composition of bearing materials- Shell bearing and their advantages- special bearings material for diesel engine application bearing failure & its causes-care & maintenance. Crank-shaft balancing, Firing order of the engine, Description and function of the fly wheel and vibration damper. Crank case & oil pump, gears timing mark, Chain sprockets, chain tensioner etc. Description of Cylinder block, Cylinder block construction, and Different type of Cylinder sleeves (liner).
**Need for Cooling systems**, Heat transfer method, Boiling point & pressure, Vehicle coolant properties and recommended change of interval, Different type of cooling systems, Radiator, Coolant hoses, Water pump, Cooling system thermostat, Cooling fans, Temperature indicators, Radiator pressure cap, Recovery system, Thermo-switch

**Need for lubrication system**, Functions of oil, Viscosity and its grade as per SAE, Oil additives, Synthetic oils, The lubrication system, Splash system, Pressure system, Description and function of Sump, Oil tank, Pickup tube, different type of Oil pump & Oil filters, Oil pressure relief valve, Spurt holes & galleries, Oil indicators, Oil cooler

**Intake & exhaust systems** – Description of Diesel induction & Exhaust systems. Description & function of air compressor, exhauster, Super charger, Intercoolers, turbo charger, variable turbo charger mechanism. Description and function of Air cleaners, Different type air cleaner, Description of Intake manifolds and material, Description and function of Exhaust manifold, Exhaust pipe, Extractors, Mufflers- Reactive, absorptive, Combination, Catalytic converters, Flexible connections, Ceramic coatings, Back-pressure, Electronic mufflers.

**Diesel Fuel Systems**- Description and function of Diesel fuel injection, fuel characteristics, Description and function of Diesel tanks &lines, Diesel fuel filters, water separator, Lift pump, Plunger pump, Priming pump, Inline injection pump, Distributor-type injection pump, Diesel injectors, Glow plugs, Cummins & Detroit Diesel injection. Electronic Diesel control systems, Common Rail Diesel Injection (CRDI) system, Hydraulically actuated electronically controlled unit injector (HEUI) diesel injection system. Sensors, actuators and ECU (Electronic Control Unit) used in Diesel Engines.

**Description of charging circuit** operation of alternators, regulator unit, ignition warning lamp- troubles and remedy in charging system.

**Braking Systems** :- Principles of braking, Drum & disc brakes, Hydraulic pressure & force, Brake pad, Regenerative braking. Brake type - principles, Air brakes, Exhaust brakes, Electric brakes, Parking brakes, Engine brakes, Park brake system Brake pedal, Brake lines, Brake fluid, Bleeding, Master cylinder, Divided systems, Tandem master cylinder, Power booster or brake unit, Hydraulic
brake booster, Electro hydraulic braking (EHB), Brake light switch, Drum brake system, Brake linings & shoes, Back plate, Wheel cylinders

**Steering Systems:** - function of Steering systems, Rack-and-pinion steering system, Recirculation ball & nut steering system

**Clutches & Manual Transmissions:** Single-plate clutches, Multi-plate clutches, Operating mechanisms, Pressure plate, Throw-out bearing, Gear ratios, Compound gear trains, Gear selection, Bearings, Oil seals & gaskets, Automated Manual Transmission (AMT), Gearbox layouts, Transaxle designs, Gearbox operation, Transaxle, Synchromesh unit, Gear shift mechanism, Final Drive & Drive Shafts - Basic layouts Front-wheel drive layout, Rear-wheel drive layout, Four-wheel drive layout, All-wheel drive layout, Front-wheel drive, Front-wheel drive shafts, Front-wheel final drives, differentials

Rear-wheel drive- Propeller shaft, Hydraulic system & controls, Spool valves, Regulating or flow control valves, Control valves, Orifices

**Suspension Systems:** Principles of suspension, Suspension force, Unsprung weight, Wheel unit location, Dampening. Types of suspension-Suspension systems, Solid axle, Dead axle

---

**NOTE:** - It may be noted that apart from the topics detailed above, questions from other topics prescribed for the educational qualification of the post may also appear in the question paper. There is no undertaking that all the topics above may be covered in the question paper
